

Together against Corona: Protection and hygiene rules

Dear visitors,

Please note our protection and hygiene rules for visiting the exhibition
"All about Anne" supplementing our house rules:

- If you have symptoms that might suggest a Covid-19 infection, please stay at home.
- Please wear a medical mask or an FFP2 mask. Exceptions apply for children up to six years, as well as for persons who cannot wear a face mask due to a medically certified health impairment, a medically certified chronic illness or a disability. A medical mask is sufficient for children under 14 years of age.
- Please inform yourself about the educational offers on our website at www.annefrank.de/en/exhibition-berlin

For your own protection and the protection of those around you, we ask you to comply with the regulations.

We look forward to your visit!
The team of Anne Frank Zentrum
